LETTER OF RECOMMENDATION

It is with great pleasure that I write this recommendation on behalf of **Jalli Tejaswini.** I have known Jalli Tejaswini for over four years, primarily as professor at Sree Vidyanikethan Engineering College. I have closely mentored her throughout her undergraduate studies and so can appraise both her technical and managerial abilities.
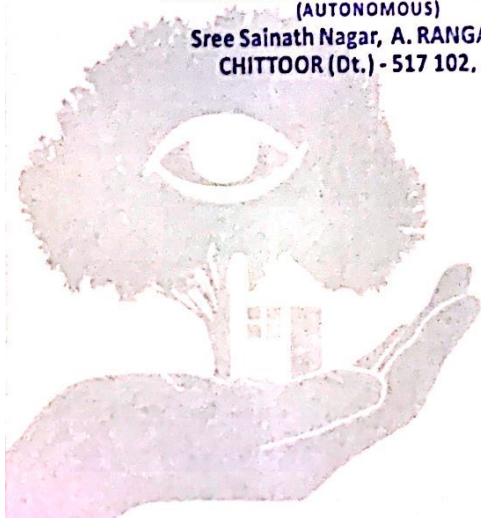

Academically, she was one of the best students to enroll to Computer Science and Engineering department (2016-2020). Apart from academics, she also shows a great interest in the co-curricular and extra-curricular activities. Her excellent presentation skills have helped her to give some very good presentation during her study. Her communication and managerial skills have helped her to organize numerous events in our college successfully.

I assure you that she will be a very promising student and will definitely meet the requirements of a prospective student. With these strengths and her abilities, I firmly believe that she would be successful in pursuing higher studies at your university.

Jalli Tejaswini is a rare find. She is well trained, ambitious and also detail-oriented. Her enthusiasm reflects in her work. **I strongly recommend** her for admission to the Master's program at your university. Please feel free to contact me for any further clarification.

(Dr. C. MADHUSUDHANA RAO)
